OUR MISSION

At AM Air Service, our mission is to provide a unique transportation solution that incorporates the safety, efficiency, maneuverability and speed of a helicopter at a reasonable investment. Our goal is to serve each customer with professionalism and honesty, and to provide the utmost support to them in accomplishing their tasks in the air and on the ground.

3011 Millstream Road
Marengo, IL 60152

AM Air Service accepts Visa, MasterCard and American Express. **All flights originate from the Schaumburg Regional Airport at 905 W. Irving Park Road, located approximately 10 miles west of O'Hare International Airport, and 1 mile west of the intersection of Irving Park and Roselle Roads.** All prices are subject to change due to FAA restrictions and weather conditions. Due to the volatile pricing of aviation fuel, a fuel surcharge may be added.

A SMART CHOICE IN THE AIR AND ON THE GROUND

Welcome to AM Air Service...
a smart choice in the air and on the ground. In the air, we offer the safety, speed and efficiency unique to a turbine helicopter. On the ground, this allows you to accomplish your tasks at a reasonable investment and with far greater precision than a fixed wing aircraft. Plus, we offer block discount rates and quick response in emergency situations.

WILDLIFE COUNTS

With greater maneuverability, we can get you to and from your site faster for wildlife and insect population census, recreational area monitoring, habitat reporting, and conservation. By booking a block of time with AM Air Service, compliance with County, State and Federal DNA mandates are much more affordable.

POWER LINE/PIPELINE PATROL

When getting your engineers and project managers down to a site is mission critical, we get the job done while complementing your primary fixed-wing patrol in a seamless manner. We help facilitate maintenance and inspection, leak detection, right of way encroachments, and hazard and storm damage inspection.

TRANSPORTATION/UTILITIES

With the exceptional handling properties of a helicopter, we are an excellent choice for right-of-way encroachment, flooding, snow closures, ice flow obstructions for bridge piers, maintenance and inspections.

INSURANCE

When every minute counts, you can depend on us for disaster damage assessment and immediate transportation of your claim staff.

SECURITY/SAFETY

We offer critical aerial observation for perimeter site patrol, vehicle escort and surveillance, chase aircraft for race boat safety divers, and drug field detection for state and local law enforcement.

CHARTERS (PART 135)

Our fast, dependable service accommodates air taxi/on demand charter, express point-to-point cargo delivery, and passenger transportation.

AERIAL SURVEYS

With the ability to hover for extended periods of time, we're an ideal choice for aerial surveys required for conservation and forestation programs.

SITE SELECTION

Enjoy a perfect vantage point to view proposed real estate layouts for residential, commercial and industrial projects as well as to highlight and pinpoint major arterial routes in and out of a proposed development.

PHOTOGRAPHY

With our unique maneuverability, you can produce exceptional commercial photography with both a still or hand-held video camera. A helicopter is the perfect platform for commercial, industrial or residential film location.
